

LOVE YOUR HEART

Heart disease is the leading cause of death worldwide.

Heart disease is the world's #1 cause of death. But it wasn't always that way. Over the last 30 years, our diets have shifted dramatically. Processed meats, refined sugars and not enough fruits, vegetables and healthy fats have led to this global epidemic.

Core Care loves your heart and body.

The science behind omega fatty acids is clear: the proper balance of omegas supports heart health and cellular function throughout the body. These essential nutrients are nearly impossible to find in the modern diet. Core Care was developed to give your body the highest quality omegas 1, 3, 4, 5, 6, 7, 9 and 11 oils in the world—the perfect balance your body needs to stay healthy.

ARE YOU GETTING A COMPLETE BLEND OF OMEGAS?

FDA HEART HEALTH CLAIM

Ingredients EPA/DHA may reduce the risk of coronary heart disease*

Promotes Circulation

Healthy Inflammatory Response

Reduce Triglycerides

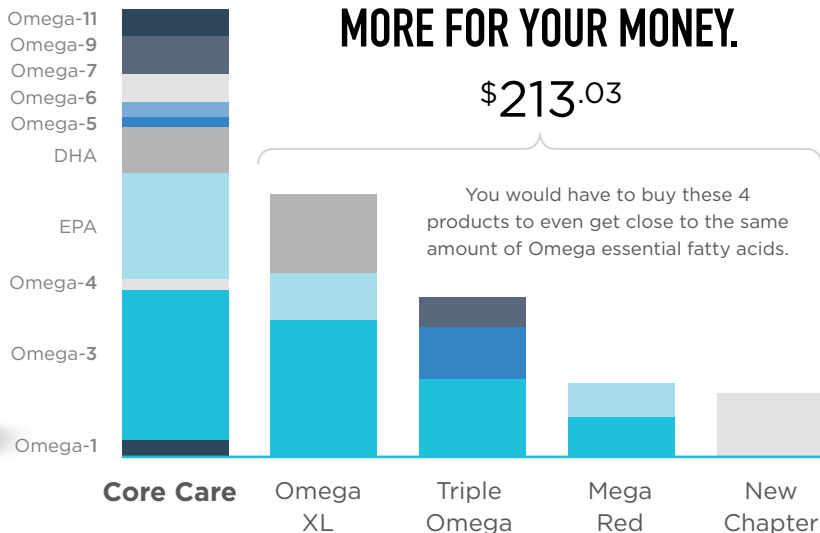

*Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of CORE CARE™ provides 830 mg of EPA and DHA omega-3 fatty acids.

Core Care is the ultimate heart product.

Not all omegas are created equal, and should not be consumed in equal parts. Core Care delivers a perfectly balanced blend of the highest-quality Omegas 1, 3, 4, 5, 6, 7, 9 and 11.

Morinda Citrifolia NONI

PEOPLE WORLDWIDE ARE ALREADY LOVING THEIR HEARTS.

After taking Core Care for 4 days I noticed a significant difference in my skin and hair. My hands were smoother and softer and my hair was shiny and more alive. I take Core Care daily and love the results inside and out. I have peace of mind knowing I am supporting my heart and cells and feel the results on my hands. *Victoria—Wife, Mother*

I've dealt with joint concerns for many years. After taking Core Care I noticed a significant improvement in my daily mobility and flexibility. I wake up in the morning and find my joints feel better. Core Care has made a huge difference in my life.
